Asta resources includes the first production-grade set of tools that let agents perform scientific research tasks, with an evaluation mode that enables fair, reproducible evaluation.

Ai2, a non-profit research institute founded by Paul Allen, is committed to breakthrough AI to solve the world's biggest problems.

Our AI research turns planetary data into action--deeper climate science, stronger agriculture and food security, proactive wildfire management, and lasting protection for wildlife and ecosystems.

Research Papers Explore a selection of our published work on a variety of key research challenges in AI.
