-----

The bank has signed an agreement with Malta Iberia, the regional subsidiary of US TES startup Malta Inc., to support the demonstration of Malta's so-called "pumped heat ...

Using proven subsystems, a locally sourced supply chain, and abundantly available materials like salt, the system delivers economical, clean energy with a flexible power and heat delivery mix ...

In the last few years, we've advanced installing short-duration storage to support the generation of renewable energy, but we still need to develop ...

Because the Malta system uses fundamentally low-cost materials like salt, steel, and air, the cost of the physical system is low enough to make it a compelling solution for the ...
