What is El Salvador's railway project?

This ambitious project not only aims to enhance domestic transportation but also seeks to create an interconnected railway corridor linking multiple countries. El Salvador is committed to the development of railway systems facilitating the movement of both people and goods within the country.

Are there trains in El Salvador?

As of 2022, no trains are operated in El Salvador. The national railroad corporation is FENADESAL (Ferrocarriles Nacionales de El Salvador), a division of the Autonomous Port Executive Commission (CEPA).

Can a monorail improve passenger transit in Central America?

In addition to the Pacific Train, the government is exploring the implementation of a monorail in the Metropolitan Area of San Salvador, contributing to passenger transit improvement. In Central America, Honduras, El Salvador, and Nicaragua currently lack cargo or passenger trains, but all three nations are contemplating corridor projects.

How much will El Salvador invest in infrastructure?

El Salvador's share in this ambitious endeavor involves a projected investment of \$10.7 billion until 2035, spanning across 86 projects. Infrastructure interventions aim to significantly reduce the cost of transporting a ton of cargo, from \$0.17 per kilometer to \$0.05, accompanied by an increase in travel speed from 16 km/h to 60 km/h.

As you know, El Salvador's geographical location is unique, as you know, and we intend to leverage this capacity to connect internally and within Central America.

The head of CEPA, Federico Anliker reportedly said that a technical team is working with the ministry of public works and transport (MOPT) to implement the initiative.

As you know, El Salvador's geographical location is unique, as you know, and we intend to leverage this capacity to connect internally and within ...

This project will contribute to the country's climate change mitigation efforts by promoting clean transit options, proposing a sustainable mobility solution such as an electric rail-based transit ...
