Explore the key differences between primary and secondary frequency regulation and discover how battery energy storage systems (BESS) enhance grid stability with fast, ...

This paper presents a hierarchical coordinated control strategy designed to enhance the overall performance of the energy storage system (ESS) in secondary frequency regulation (SFR). ...

As secondary frequency regulation (SFR) is related to the economic operation and the quality of auxiliary services provided by PSPs, it is critical to clarify its performance and ...

Compared to traditional strategies, the proposed approach takes into account the SoC discrepancies among multiple energy storage units and the duration of system net power ...
