Learn about solar on-site energy containers, their pricing factors, and how they can provide environmentally friendly, temporary energy for construction sites and events.

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of downtime.

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...
