-----

These switches are designed to physically disconnect high-voltage DC circuits, such as those between solar panels and inverters, ...

Solar disconnect switches are required by the National Electrical Code (NEC Article 690.13) and serve as the primary safety ...

This article looks at how iCoupler™ isolation technology can reduce cost, increase smart grid integration, and improve safety of solar PV inverters.

In a PV system, it's usually necessary to have a switch that can isolate the PV panels from the system --or the inverter from the grid and loads. This is mainly done using a ...
