If you're getting solar panels for your home, it's important to understand the equipment and process in order to make educated decisions.

The United States has officially approved the Sunstone Solar Energy Project, which will become the largest solar and battery storage project in the nation's history. This ...

The landscape of energy in the United States is undergoing a significant transformation, with solar power and energy storage poised for remarkable growth by 2025.

In 2024, generators added a record 30 GW of utility-scale solar to the U.S. grid, accounting for 61% of capacity additions last year. We expect this trend will continue in 2025, with 32.5 GW ...
