Tunisia is advancing utility-scale solar through a series of tenders, including the latest procurement round launched in January 2023. It previously completed a 500 MW solar ...

Solar project contracts were awarded earlier this week following the signing of agreements between Tunisia and partners from Norway and Japan for the construction of the ...

Tunisia is supporting utility-scale solar through a series of tenders, the latest of which was launched in January 2023. It also finalized a 500 MW solar tender in December 2019.

This milestone injects robust momentum into the region's green energy development. The project is located in Kairouan, central-eastern Tunisia, with a total installed ...
