---

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The container holds 20 solar panels, with capacity to integrate an additional 40-panel ground or roof array for a total of up to 60 panels (24,000W DC). Manages dual 16.2 kWh lithium battery ...

The 20FT Container 250kW 860kWh Battery Energy Storage System is a highly integrated and powerful solution for efficient energy storage and management.

Our battery container storage systems are frequently used in solar farms, EV charging stations, data centers, and emergency power setups. With integrated battery management and long ...
