Who is Asian solar?

Asian Solar is one of Southeast Asia's leading Solar Energy Firms. We are involved in design and installation of solar systems, as well as distributing solar panels from manufacturers in Thailand, China, and throughout Asia. Learn more about what we do Asian Solar has experience with diverse types of clients and installation scales

What is the Southeast Asia Solar supply chain map?

This edition of the Southeast Asia Solar Supply Chain Map provides a detailed snapshot of current realities and future ambitions, as the region navigates complex trade, investment, and production challenges.

Why is Southeast Asia a top exporter of solar power equipment?

In little over a decade, Southeast Asia has become one of the world's top exporters of solar power equipment - a success driven significantly by the relocation of Chinese manufacturers to the region. But now, the sector faces considerable challenges as US tariffs cut off their main export market, intensifying pressure on a previously booming trade.

Where do Southeast Asia's Solar Exports come from?

Southeast Asia's solar exports have primarily targeted the US, with more than 80% of the equipment it imported in the first half of 2024 sourced from Malaysia, Vietnam, Thailand and Cambodia, according to BloombergNEF. But this successful run is now under threat.

Manufacturer Directory: Access up-to-date information on solar manufacturers operating in each region. Stay ahead of the curve by understanding the key players in each market.

Convalt Energy is restoring it, on track to become the nation's second-largest producer of advanced monocrystalline solar panels, powering a stronger, sustainable domestic industry. ...
