Which rechargeable battery for South RTK GPS?

SOUTH Li-ion rechargeable batteryfor South RTK GPS Li-ion rechargeable battery for South S82 RTK GPS,for RTK Type

What is an RTK base station?

An RTK base station is a fixed GNSS receiver placed on a known or unknown point. It used satellite signals to continuously calculate its position. Then it sends real-time correction data to a rover in the field. Thus,your rover can achieve maximum accuracy,up to centimeters. This practice replaces you being off by several metres using GPS alone.

How do I broadcast RTK corrections?

There are two main ways to broadcast RTK corrections: Once the base is active and corrections are broadcasting: Connect your rover to the base via radio or NTRIP. Confirm it receives a fixed RTK solution. Stake out or collect a few known test points. Check against local control to verify accuracy.

How do I get the most out of my RTK receivers?

To get the most out of your RTK receivers,you are going to need to set up your own RTK base. This will give you the best performance and allow you to get the most out of your equipment. However,getting it wrong can cost you hours of rework,and cause you to make costly mistakes.
