The question isn't whether Sri Lanka should adopt energy storage, but how quickly it can scale implementation. As tourism rebounds and manufacturing expands, reliable power isn't just ...

As Sri Lanka's energy demands evolve, hybrid renewable systems combining solar, wind, and battery storage are becoming the new normal. ISL is proud to be part of this ...

With national goals to meet 70% of electricity demand through renewable energy by 2030 and achieve carbon neutrality in power generation by 2050, Sri Lanka has already made ...

This paper reviews the current status of Sri Lanka's power sector, assesses PHS potential in Sri Lanka, and examines the benefits of PHS development for Sri Lanka.
