To this end, in this paper, the research progress of nickel-carbon composites as electrode materials for supercapacitors and their applications in self-charging are reviewed. ...

Ultra-high-power performance, long-term stability, and compact size of supercapacitors (SCs) make them an efficient alternative for addressing the rising demand for ...

I wrote the following code. When I try to run it as at the end of the file I get this stacktrace: AttributeError: "super" object has no attribute do_something class Parent: def ...

This review provides an overview of Ni material-based carbon nanocomposites including graphene (Ni/graphene), carbon nanotubes (Ni/CNTs), and activated carbon (Ni/AC) as ...
