What is a microinverter solar system?

Typically, microinverters are "distributed" inverters. Solar PV systems with microinverters have a small inverter installed for each individual solar panel. Instead of sending energy from every panel to a single inverter, microinverters convert the DC energy to AC energy on the roof itself.

Does Thailand have a solar market?

Thailand's solar market prospects are further vivified by its broad port and logistical infrastructures. The Bangkok port alone can handle up to 1.5 million exports and imports annually. There is no limit to lucrative opportunities in this blossoming market. What does this mean for you as a solar installer or a professional in the solar industry?
