---

The 30 MW plant is the first utility-scale, grid-connected flywheel energy storage project in China and the largest one in the world.

The Dinglun Flywheel Energy Storage Power Station, with a capacity of 30 MW, is now the world's largest flywheel energy storage project which is operational, surpassing ...

The World's Largest Flywheel Energy Storage System is Changing Everything #FlywheelEnergy. At 30 MW, China's new Dinglun Flywheel Energy Storage Power Station ...

Flywheel energy storage (FES) works by spinning a rotor (flywheel) and maintaining the energy in the system as rotational energy. When energy is extracted from the system, the flywheel's ...
