Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, including hybrid and ...

Solar energy containers encapsulate cutting-edge technology designed to capture and convert sunlight into usable electricity, particularly in remote or off-grid locations. ...

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.
