This study presents a novel soft-switching inverter distinguished by a simplified topology and an innovative modulation approach. The design aims to optimize the energy ...

This paper presents the design of a 30kW wide-band-gap (WBG) device based 3-phase inverter for auxiliary power supplies (APS) in railway applications. The criti.

PDF | This study presents a novel soft-switching inverter distinguished by a simplified topology and an innovative modulation approach.

A new state-feedback control based 3 phase PWM inverter with improved parallel resonant DC link, Proceedings of the Conference record of the 1992 IEEE Industry ...
