What are power tool batteries used for?

Power tool batteries are used in cordless industrial applications such as Construction, Maintenance, Plumbing, Servicing, and DIY. Due to your selection of other attributes some options are not available - amend or clear filters to allow selection of these options.

What kind of battery do I need for a power tool?

Get in touch! Cordless power tool batteries: 12V, 18V lithium-ion. Dewalt, Bosch, Makita, Hikoki. Compatible with drills, saws, grinders. 2.0Ah-6.0Ah capacity.

Do cordless tools need batteries?

Cordless tools depend on high performance lithium ion batteries and intelligent chargers. We stock compact 12V packs for lightweight tools, powerful 18V and 36V batteries for drills and saws, and dual voltage systems like Hikoki's Multi Volt for maximum flexibility.
