---

Building Integrated Photovoltaic (BIPV) glass is a type of solar glass designed to seamlessly integrate with architectural elements in buildings while generating electricity. It serves both as ...

The carved curtain wall not only blocks sun glare and heat gain but also creates dynamic corner workspaces. The facade will feature high-performance glass with low reflectivity.

Customized ITO / FTO conductive glass plays a crucial role in scientific experiments, offering excellent conductivity, transparency, and stability. Ideal for photovoltaics, sensors, and ...
