Who produces electricity in Tunisia?

State power utility company STEG controls 92.1% of the country's installed power production capacity and produces 83.5% of the electricity. The remainder is imported from Algeria and Libya as well as produced by Tunisia's only independent power producer (IPP) Carthage Power Company(CPC),a 471-MW combined-cycle power plant.

Who owns Sidi Bouzid & Tozeur solar projects in Tunisia?

The agreement enhances the partners' collaboration in Tunisia,building on the success of the 60 MW Sidi Bouzid I and 60 MW Tozeur solar projects currently under construction. Scatecwill own 50% of the Sidi Bouzid II project,while Aeolus will own 50%.

What is a PPA in Tunisia?

The PPA was awarded in December 2024 through a government tender to support Tunisia's ambitious renewable energy targets and to enhance the country's energy security. Scatec has further signed a Joint Development Agreement, with Aeolus SAS (Aeolus), part of the Japanese conglomerate Toyota Tsusho Group, for the project.

Why is Scatec planning more solar and wind auctions in Tunisia?

To meet this demand, the authorities are planning further solar and wind auctions in the years to come. Scatec will continue to explore Tunisia's attractive renewables market through upcoming auctions, leveraging its partnership with Aeolus and the fully integrated business model.
