The Treasury's Summer Statement confirmed that any battery storage added to an existing solar, wind or CHP system will qualify for 0% VAT from this autumn.

The proposed exemption, like the current exemption for solar energy systems, would allow local jurisdictions to opt-out and to continue to impose local sales tax on energy ...

As solar prices plummet and wind farms multiply, one truth emerges: the future of energy storage isn't just about better batteries. It's about smarter taxes.

In the Spring 2022 budget VAT relief was announced for some energy saving measures including solar PV and Ground and Air heat pumps. Part of this scheme was battery ...
