China's GoodWe has commenced operations at a manufacturing facility in Vietnam. The plant specializes in grid-tied and hybrid inverters.

The Vietnam solar inverter market is expected to ride on favorable government policies, a decrease in the cost of the technology, and rising investments in solar energy.

The company distributes solar power equipment, including solar inverters, and specializes in delivering rooftop solar projects with installation and project management services.

Learn how Vietnam's commercial projects can select the right solar inverter for rooftop systems. Discover practical tips from thlinksolar.
