This study proposes a robust nested loop control scheme with the mixed optimal controller in the outer voltage control loop and the robust linear quadratic regulator (LQR) state ...

In this paper, the concept of the proposed compensation unit is explained first. Then, the corresponding mathematical model for the ...

The dual-loop control strategy for grid-connected in-verter with LCL filter in this paper can be used to control the currents of three phase grid-connected inverter, and it will let grid-connected ...

This paper proposes a control strategy for a voltage source inverter with an LCL output filter, suitable for interfacing dc voltage sources to the grid. The proposed control system is simple, ...
