Creating a more effective warranty model that addresses both supplier and end-user needs will help build a more sustainable and productive energy storage market.

In principle, the warranty period needs to be continuous from the date when the equipment is purchased. Otherwise, the warranty extension package will become invalid.

If a Product fails within the Warranty period, the end-user must stop using the Product or the system in which the Product is installed by isolating the Product from any energy source, make ...

In conclusion, the warranty of our 40ft HC Energy Storage Container offers you a wide range of coverage, ensuring that you can rely on your energy storage system for years to ...
