What are West Africans doing to improve their power systems?

West Africans are now moving in many directions to enhance their power systems. This report offers an overview of the challenges and the great profusion of activity across the region. It should inform conversation at Nigeria Energy in Lagos (19-21 September) and at the Africa Energy Expo in Rwanda next year.

What is the main source of power in West Africa?

Hydroelectric power is the dominant source of power in the region and is the focus of most of the large schemes underway, although there are also plans to develop more gas-fired plants and some initiatives to develop coal-fired capacity. West African countries have now begun to develop utility-scale solar power.

What is the West Africa Energy Program?

The West Africa Energy Program run by US AID's Power Africa division includes support for five solar projects which will provide about 150MW of electricity, including the Koden and Nagra's ongoing solar plants in Burkina Faso and a 250MW solar /hydropower hybrid plant in Ghana.

Where in West Africa is the biggest power generation project?

There are significant power generation projects planned or underway in most parts of West Africa, with regional economic heavyweight Nigeria the most active market and also home to the biggest scheme: the 3GW Mambilla hydroelectric plant.

This is the human impact of West Africa's energy storage revolution, where battery plants like the 105 MW/105 MWh project in Côte d'Ivoire are rewriting the region's energy story ...

The U.S. Trade and Development Agency (USTDA) awarded a grant for a feasibility study to help Lekela Power B.V. - Energie Stockage, Amsterdam, Netherlands, ...

The West African Development Bank (BOAD) has approved a US\$24 million loan for a solar and storage project in Senegal with a 15MW/45MWh battery energy storage system (BESS).

A snapshot of the battery energy storage landscape reveals contrasts, with a handful of nations leading a significant buildout of utility-scale battery energy storage systems ...
