Gaining enough weight during pregnancy is crucial for your unborn baby's health. Know how much to gain and how to make smart choices.

A normal resting heart rate for adults ranges from 60 to 100 beats per minute. A heart rate above or below that may signal a health condition.

Infant growth rates depend on various factors. Consider what's typical during baby's first year.

An A1C test result shows the average blood sugar level over the past 2 to 3 months. The A1C test measures what percentage of hemoglobin in the blood is coated with ...
