Do energy service companies work for O&R?

These energy service companies have met the eligibility requirements established by the New York State Public Service Commission and indicated their intention to serve our NY customers. They don't work for or represent O&R. Remember: It's your energy, your choice. You're under no obligation to switch or choose an energy service company.

What is an energy service company?

Energy service companies are corporations that compete to sell you electricity and natural gas. They must be registered with the New York State Public Service Commission and act solely as the energy supplier--we remain the energy delivery company.

How do I find alternative electricity suppliers?

Electric utility customers may contact their distribution utility or the utility regulatory commission in their state to see if and to what extent retail choice is an option and if a list of alternate electricity suppliers is available. Last updated: February 6, 2024. How old are U.S. nuclear power plants, and when was the newest one built?

Can a customer choose an alternate electricity supplier?

Some electric utility customers have the option to choose an alternate electricity supplier in states where the electric utility industry has been restructured. This consumer option is often called retail choice or customer choice.
