What is a lithium ion battery storage cabinet?

This 83L Single Door Lithium Ion Battery Storage Cabinet is designed for safe, smart Li-Ion battery charging, featuring a smart cooling system, double steel walls, four adjustable shelves with 20 plug sockets, and advanced safety features compliant with FM6050, OSHA, and NFPA standards.

Why should you choose a lithium-ion battery cabinet?

Whether from impact,overcharging,or internal fault,even small battery packs can pose a significant hazard -- especially when stored in bulk. Our Lithium-ion Battery Cabinets are designed to minimise this risk through controlled,ventilated and secure containment.

Are lithium-ion batteries fire-resistant?

Fire-resistant. Ready for NZ conditions. As lithium-ion batteries become standard across power tools,plant,transport,and storage systems,the risk of fire from thermal runaway increases. Whether from impact,overcharging,or internal fault,even small battery packs can pose a significant hazard -- especially when stored in bulk.

Can a lithium battery be stored in a standard storage solution?

Standard storage solutions are not designed to handle lithium battery storage risks. When these batteries fail,they can exceed temperatures of 500#176;C and release toxic gases like hydrogen fluoride.

When choosing your lithium battery cabinet, consider your battery inventory, charging frequency, and future growth to select your ideal capacity for dangerous goods storage in NZ.

Follows the design requirements of AS1940:2017. This double-doored unit will provide an easily accessible and convenient location to safely secure your Lithium-ion batteries. Adjustable ...

This 83L Single Door Lithium Ion Battery Storage Cabinet is designed for safe, smart Li-Ion battery charging, featuring a smart cooling system, double steel walls, four adjustable shelves ...

Store lithium-ion batteries safely with our fire-resistant, AS/NZS 5139-compliant cabinets - perfect for NZ worksites, warehouses & workshops.
