Are battery storage cabinets safe?

Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment. CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them.

What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.

What is a battery cabinet?

Battery cabinet that includes Lithium-ion batteries, Battery Management System (BMS), switchgear, power supply, and communication interface. Reduces the battery room size and increases tolerance to a wider operating temperature range, which allows you to decrease the capacity of the cooling solution.

Why should you choose a battery cabinet?

Our battery cabinets are sophisticated and offer modular solutions that can withstand even temperatures and earthquakes when it matters. VENTILATION: Our cabinets are specially designed for the use of stationary batteries. One important factor here is ventilation, both for cooling and for the removal of hydrogen (H₂).
