Why do we need a Bess system?

By doing so, it ensures that energy resources are utilized more efficiently, minimizing waste and improving the overall efficiency of energy production and distribution. The BESS also offers significant operational flexibility, allowing it to adapt to varying energy demands and supply conditions quickly and effectively.

What is a Bess solution?

WEG's world class BESS solutions are capable of either co-location with variable renewable sources(PV or Wind) to reduce intermittency in supply,as well as stand-alone applications to address a host of reliability and stability issues on the grid.

Who is spark a Bess service provider?

Spark has a proven track record in BESS, with over 100 MWh of projects built or in progress. Accredited maintenance providers for most major OEMs including Tesla, Sungrow, Schneider, Eaton, Powin, SMA, EPC, LG, and Samsung.
