What financing options are available for mobile storage?

Bidirectional vehicles employed for building resilience and or load management may qualify for mobile storage financing with various FEMP programs (UESC, ESPC, ESPC ENABLE, AFFECT). Learn more about financing options for mobile storage. Solar carport at Fort Buchanan covers eight ESPC-funded EVSE units.

Should federal facilities use managed and bidirectional charging?

Federal facilities and their fleets serve critical missions that may be compromised or require backup power in the event of a grid outage. As the federal government moves toward fleet electrification, site decarbonization, and deployment of local distributed energy resources (DERs), agencies should consider both managed and bidirectional charging.

What is a bi-directional charger?

The bi-directional charger is a relatively new technology that allows an EV to send energy back to your home (V2H - vehicle-to-home), to the grid (V2G - vehicle-to-grid), or to another electrical device (V2L - vehicle-to-load) as well as receive energy from an electrical source, including solar.

How does a bidirectional EV charger work?

With a bidirectional charger, your EV charging goes both ways; electricity flows from the grid into your vehicle and can be routed back to your home, the grid, or another device. In addition, the V2H feature enables you to use your EV like a home battery system to store excess solar energy.

Installing charging infrastructure can typically be costly and timely, but with EnTech Solutions' eSkid charging solution and Wells Fargo's flexible, customizable loan and ...

Need a container but want to keep your cash flow strong? We've partnered with First Financial Bank to offer straightforward, flexible financing with no deposit, fast approvals, and zero early ...

Headquartered in San Francisco, Bidirectional Energy partners with automakers, charger manufacturers, and utilities to bring bidirectional charging from pilot projects to mass ...

"We are excited to collaborate with industry leaders such as ChargePoint and EnTech Solutions to bring a streamlined financing program for the rapidly deployable, eSkid ...
