Since 1981, we have consistently applied the latest manufacturing technology and technical solutions to support the country's rapid growth in electrification, urbanization and digitization. ...

We are a transformer and electrical equipment distributor established in 2000, trusted in supplying a wide range of transformers for PLN and transformer manufacturers across Indonesia.

Our transformers are being adjusted to distributed voltage in Indonesia from 1000 V up to 275 KV. The tap changer are at 2,5%, 5% and 10% are operated outside tank at unloaded condition.

The Transformer industry in Indonesia presents several key considerations for potential investors and stakeholders. First, understanding local regulations is vital, as compliance with national ...
