---

In order to minimize losses and enhance the seamless integration of wind energy, researchers have explored the operational adjustment of target power in storage systems, ...

To meet the inertia and primary frequency regulation requirements of the wind-storage system, and reduce the power ...

Therefore, this paper proposes a control strategy for wind storage systems based on temporal pattern attention (TPA) and ...

This paper develops an optimal control method of energy storage systems (ESSs) that utilizes WPP output prediction to mitigate WPP output fluctuation. In the proposed ...
