Freeze water using solar power during the day, then use the ice for nighttime cooling. It's sort of like a thermal battery, cutting diesel consumption by up to 80% in cold storage facilities.

Zambia's iconic Victoria Falls roaring with hydropower potential, while solar panels bake under the African sun. But here's the kicker--Zambia isn't just playing catch-up.

This product is a new energy storage box (multi-purpose backup power station), built-in high-capacity LiFePO4 pouch cells, combined with a high-strength aluminum alloy shell, is a ...

Contemporary Amperex Technology Co., Limited (CATL) has announced that its innovative liquid cooling battery energy storage system solution (BESS) based on lithium iron phosphate (LFP), ...
